CTX-Cenol, Inc.
c/o Sharon Johnston/ Agent
509 Tower Valley Drive
Hillsboro, MO 63050

Subject: Label and CSF Amendment – deleting “on-animal” and animal premise uses to label and minor changes to the CSFs
Product Name: Cenol Insect Killer RTU
EPA Registration Number: 45385-102
Application Date: 7/10/2018
Decision Number: 543050, 543047

Dear Ms. Johnston:

The amended label and CSF(s) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, are acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSF(s):

- Basic CSF dated 4/21/2017
- Alternate CSF 1 dated 7/10/2018
- Alternate CSF 2 dated 7/10/2018

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process.

Page 2 of 2
EPA Reg. No. 45385-102
Decision No. 543050, 543047

Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Autumn Metzger at 703-305-5314, or Metzger.autumn@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Elizabeth Fertich". The signature is cursive and somewhat stylized, with the first name being more prominent.

PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers, must wear the following:

- Long-sleeved shirt
- Long pants
- Shoes plus socks
- Gloves

User Safety Requirements:

- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Follow manufacturer's instructions for cleaning/maintaining PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

[Products used exclusively indoors may omit the Environmental Hazards Statement.]

[Environmental Hazards

[This product is extremely toxic to aquatic organism, including fish and invertebrates. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean watermark. Do not apply when weather conditions favor drift from treated area. Drift and run-off from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater.]

This pesticide is highly toxic to bees and other pollinating insects exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees or other pollinating insects are foraging the treatment area.]

Physical and Chemical Hazards

Do not use on electrical equipment or on surfaces that can be harmed or stained by water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

- Except when applying to clothing, do not enter or allow others to enter until vapors, mists and aerosols have dispersed, sprays have dried and the treated area has been thoroughly ventilated.
- Except when applying to clothing, do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during applications.
- Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mist have dispersed.
- Do not apply as a broadcast treatment to indoor surfaces at residential sites, including nurseries, day care centers, schools, hospitals, and nursing homes.

- For articles: Do not wet articles to point of runoff or drip. Do not use treated article until spray has dried.
- Dry clean treated clothes before wearing.
- Remove pets, birds and cover any water inhabited by fish (such as aquariums and ornamental fish ponds) before application. Turn off aquarium filtering systems before spraying and wait approximately 15 minutes after application before turning the filter back on.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- *[Product labeled for indoor uses only may omit the following text:*
 - All outdoor applications must be limited to spot or crack-and-crevice treatments only
except for the following permitted uses:
 - 1) Treatment to soil or vegetation around structures
 - 2) Applications to lawns, turf, and other vegetation
 - All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications, only.
 - Do not water the treated area to the point of run-off.
 - Do not make applications during rain.]
- Not for use in outdoor residential mosquito misting systems.
- Application as a surface spray, crack and crevice or spot spray: Remove or cover exposed food and water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces or wash them thoroughly before use. Do not apply more than 1 time per day.
- Application as a space spray: Do not apply more than 1 time per day.
- In the home, cover all dishes, utensils, food processing surfaces and equipment during treatment or thoroughly wash before use.
- Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held.
- May be applied in non-food/feed areas. Non-food/feed establishment areas are areas such as garbage rooms, lavatories, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, mop closets and storage (after canning or bottling).
- Commercial food/feed areas where the product cannot be used include areas for receiving, serving, storage (Dry, Cold, Frozen, Raw), packaging (Cleaning, Slicing, Cooking, Grinding), edible, waste storage, enclosed processing systems (Mills, Dairies, Edible Oils, Syrups).
- Do not use in aircraft.

SHAKE WELL BEFORE USING

{For trigger spray bottles} Unless otherwise noted, hold container upright and spray from a distance of 12 to 15 inches. {For non-trigger spray containers} Transfer product to compressed air or non-thermal mechanical application equipment. Hold nozzle at a distance of 12 to 15 inches unless otherwise noted in the directions for use.

When treating surfaces and fabrics where water alone could stain, spray in an inconspicuous area to test for possible staining or discoloration.

INDOORS:

Houseflies, Fruit Flies, Mosquitoes, Gnats, Wasps, Hornets, Bees, Black Flies, Skipper Flies, and Small Flying Moths: Close all doors and windows and ventilating systems. Using non-thermal mechanical or compressed air equipment adjusted to deliver a fine mist, direct spray upward into center of room with a slow sweeping motion. Apply 1 oz. per 1000 cubic feet of space. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Leave room and keep area closed for 15 minutes after spraying. Sweep up and discard fallen insects.

Cockroaches, Waterbugs, Palmetto Bugs, Silverfish, Firebrats, Crickets, Scorpions, Spiders, Millipedes, Centipedes, Sowbugs and Pillbugs: Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible.

Ants: Spray trails, nests and points of entry. Spray on ants where possible.

Angoumois Grain Moths: Close doors and windows, direct spray into all parts of room especially around stored food product containers, pallets and darkened areas. Apply 1 oz. for each 1000 cubic feet of space, moving toward the door. Leave room and keep area closed for 15 minutes following treatment.

EXPOSED STAGES OF **Confused Flour Beetles, Saw-Toothed Grain Beetles, Red Flour Beetles, Rice Weevils, Granary Weevils, Grain Mites:** Spray into cracks and crevices, processing and handling equipment, around cartons or containers or other areas where these insects tend to congregate. Keep area closed for 45 minutes to 1 hour after treatment.

Carpet Beetles: Apply as a spot treatment to edges of carpeting and under carpeting and rugs. Make localized application to floor and baseboards. Spray directly into cracks, crevices and infested areas of shelving. Repeat treatment as needed.

TO KILL **Bed Bugs:** Apply as a spot treatment to cracks and crevices, around baseboards, floorboards, bed boards and walls. First, thoroughly clean and air mattresses and springs. Then spot treat only areas that may harbor bed bugs, concentrating on tufts, folds and seams. Allow treated articles to thoroughly dry before use. Repeat after 4 weeks if necessary. **To treat beds:** Disassemble the bed frame and remove bedding. Do not apply to bedding. Wash bedding and dry using high heat to kill bed bugs. Apply this product to the bed frame, mattress and box spring. Application to mattresses and box springs is for treatment of seams, edges and tufts only. Do not saturate the mattress or box spring. Do not treat the entire surface of the mattress or box spring. Allow the spray to dry before using the mattress and/or box spring. Also apply the product to cracks and crevices in sleeping area. Make spot treatment to baseboards, behind pictures/wall hangings, along and underneath carpet edges and to other infested articles/furniture in the bedroom or sleeping area. Do not apply to stuffed animals or toys. **To treat luggage:** Remove contents and spot treat areas that may harbor bed bugs, concentrating on corners, pockets and seams.

TO CONTROL **Clothes Moths** and **Carpet Beetles** on wool and other proteinaceous fibers: Remove infested articles from storage, brush thoroughly, and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus and other storages directing the spray into cracks, joints and crevices. After airing, infested articles may be treated by spraying lightly, keeping nozzle at least three feet from fabric to avoid staining. Allow all sprayed articles to dry thoroughly before use.

Fleas & Ticks (Adults and Larvae): Remove and thoroughly clean or destroy pet bedding. Spray pet sleeping quarters and bed then spot treat floor and floor covering, with special attention to cracks and crevices around baseboards, window and door frames. Place fresh bedding in animal quarters following treatment. Allow to dry thoroughly before allowing pets to contact treated areas. Do not retreat in less than 60 days.

TO KILL Lice and Louse Eggs: Apply as a spot, crack & crevice treatment. Spray from a distance of 8 to 10 inches. Spray only those garments and parts of bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying. Allow all treated articles to dry thoroughly before use.

TO KILL [CONTROL] [House] Dust Mites: This product controls house dust mites that may cause asthma, hay fever, rhinitis, watery eyes and sneezing. **On Upholstered Furniture and Drapes** – test fabric in an inconspicuous area to insure dyes will not bleed. Apply as a spot, crack & crevice treatment to fabric surfaces paying particular attention to tufts and seams. Spray until damp. Do not use on delicate fabrics. Allow furniture to dry thoroughly before using. **On Carpets** – DO NOT APPLY AS A BROADCAST SPRAY AT RESIDENTIAL SITES, in these sites apply only as a spot, crack & crevice treatment. Use an overlapping pattern to insure total coverage. After application, brush the surface of the carpet with a broom or brush to insure deep penetration. Allow carpet to dry thoroughly before reentering the treated area. Drying time can be accelerated by using a fan. Leave room while fan is in use until carpet is dry. **On Mattresses** – spray the sides of mattresses until damp, paying particular attention to tufts and seams. Allow to dry thoroughly before using.

OUTDOORS:

Point spray nozzle away from face. Hold container on slight downward angle. For best results, spray when air is calm. Allow a few minutes for product to take effect.

Mosquitoes: Apply to shrubbery and vegetation where mosquitoes may rest. Give special attention to breeding areas such as garbage cans and compost piles.

Wasp Nests: Thoroughly spray directly on insects and their nests. Apply in late evening when insects are at rest. Spray into hiding and breeding places, under eaves, in cracks or holes contacting as many insects as possible.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area away from heat or open flame. Do not transport or store below 32°F. Protect from freezing.

Pesticide Disposal: As a responsible environmental practice, where possible, it is recommended that all of the contents of the container be used, carefully following label directions and precautions. If wastes cannot be avoided, follow if partly filled instructions below.

Container Handling: Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of Liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following conditions, disclaimer of warranties and limitations of liability.

CONDITIONS: The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

CAUTION

Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt, long pants, socks and shoes. Remove and wash contaminated clothing before reuse.

[Products used exclusively indoors may omit the Environmental Hazards Statement.]

[Environmental Hazards

[This product is extremely toxic to aquatic organism, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This pesticide is highly toxic to bees and other pollinating insects exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees or other pollinating insects are foraging the treatment area.]

Physical and Chemical Hazards

Do not use on electrical equipment or on surfaces that can be harmed or stained by water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

- [Except when applying to clothing, do not allow adults, children or pets enter the treated area until mists have dispersed and sprays have dried.
- [Except when applying to clothing do not apply this product in a way that will contact adults, children or pets, either directly or through drift.
- Do not apply as a broadcast treatment to indoor residential surfaces.
- Application as a space spray: Do not apply more than 1 time per day.
- For articles: Do not wet articles to point of runoff or drip. Do not use treated article until spray has dried.
- Dry clean treated clothes before wearing.
- Remove pets, birds and cover any water inhabited by fish (such as aquariums and ornamental fish ponds) before application. Turn off aquarium filtering systems before spraying and wait approximately 15 minutes after application before turning the filter back on.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- *[Product labeled for indoor uses only may omit the following text:*
 - All outdoor applications must be limited to spot or crack-and-crevice treatments only
except for the following permitted uses:
 - 1) Treatment to soil or vegetation around structures
 - 2) Applications to lawns, turf, and other vegetation
 - All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows,

doors and eaves) are limited to spot and crack-and-crevice applications, only.

- Do not water the treated area to the point of run-off.

- Not for use in outdoor residential mosquito misting systems.
- Remove or cover exposed food and water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces or wash them thoroughly before use. Do not apply more than 1 time per day.
- Cover all dishes, utensils, food processing surfaces and equipment during treatment or thoroughly wash before use.

SHAKE WELL BEFORE USING

Unless otherwise noted, hold container upright and spray from a distance of 12 to 15 inches.

When treating surfaces and fabrics where water alone could stain, spray in an inconspicuous area to test for possible staining or discoloration.

INDOORS:

Houseflies, Mosquitoes, Gnats, and Small Flying Moths: As a room spray to control these pests, close all doors and windows and pump spray aiming the nozzle into the upper corners of the room and filling the room with a fine mist. Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed. Do not allow adults, children, or pets to enter until vapors, mists, and aerosols have dispersed and the treated area has been thoroughly ventilated. Keep room closed for at least 15 minutes and then air room out before occupancy. Before spraying in kitchen or dining areas, cover or remove food and utensils.

Cockroaches, Waterbugs, Palmetto Bugs, Silverfish, Firebrats, Crickets, Scorpions, Spiders, Millipedes, Centipedes, Sowbugs and Pillbugs: Spray into hiding places such as cracks and crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible.

Ants: Spray trails, nests and points of entry. Spray on ants where possible.

EXPOSED STAGES OF **Confused Flour Beetles, Cigarette Beetles, Drug Store Beetles, Saw-Toothed Grain Beetles, Red Flour Beetles, Rice Weevils, Granary Weevils, Grain Mites in Exposed Adult and Larvae Stages:** Spray into cracks and crevices, around cartons or containers or other areas where these insects tend to congregate. Keep area closed for 45 minutes to 1 hour after treatment.

Carpet Beetles: Apply as a spot treatment to edges of carpeting and under carpeting and rugs. Make localized application to floor and baseboards. Spray directly into cracks, crevices and infested areas of shelving. Repeat treatment as needed.

TO KILL **Bed Bugs:** Apply as a spot treatment to cracks and crevices, around baseboards, floorboards, bed boards and walls. First, thoroughly clean and air mattresses and springs. Then spot treat only areas that may harbor bed bugs, concentrating on tufts, folds and seams. Allow treated articles to thoroughly dry before use. Repeat after 4 weeks if necessary. **To treat beds:** Disassemble the bed frame and remove bedding. Do not apply to bedding. Wash bedding and dry using high heat to kill bed bugs. Apply this product to the bed frame, mattress and box spring. Application to mattresses and box springs is for treatment of seams, edges and tufts only. Do not saturate the mattress or box spring. Do not treat the entire surface of the mattress or box spring. Allow the spray to dry before using the mattress and/or box spring. Also apply the product to cracks and crevices in sleeping area. Make spot treatment to baseboards, behind pictures/wall

hangings, along and underneath carpet edges and to other infested articles/furniture in the bedroom or sleeping area. Do not apply to stuffed animals or toys.

To treat luggage: Remove contents and spot treat areas that may harbor bed bugs, concentrating on corners, pockets and seams.

TO CONTROL **Clothes Moths** and **Carpet Beetles** on wool and other proteinaceous fibers: Remove infested articles from storage, brush thoroughly, and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus and other storages directing the spray into cracks, joints and crevices. After airing, infested articles may be treated by spraying lightly, keeping nozzle at least three feet from fabric to avoid staining. Allow all sprayed articles to dry thoroughly before use.

Fleas & Ticks (Adults and Larvae): Remove and thoroughly clean or destroy pet bedding. Spray pet sleeping quarters and bed then spot treat floor and floor covering, with special attention to cracks and crevices around baseboards, window and door frames. Place fresh bedding in animal quarters following treatment. Allow to dry thoroughly before allowing pets to contact treated areas. Do not retreat in less than 60 days.

TO KILL **Lice** and **Louse Eggs:** Apply as a spot, crack & crevice treatment. Hold container upright with nozzle away from you. Spray from a distance of 8 to 10 inches. Spray only those garments and parts of bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying. Allow all treated articles to dry thoroughly before use.

TO KILL [CONTROL] [**House**] **Dust Mites:** This product controls house dust mites that may cause asthma, hay fever, rhinitis, watery eyes and sneezing. **On Upholstered Furniture and Drapes** – test fabric in an inconspicuous area to insure dyes will not bleed.
